Summary

Motivated Information Technology student with strong skills in Java, C/C++, React, Firebase, SQL and web development. Experienced in developing real-world web, desktop, and computer vision applications, with a passion for software development, problem-solving, and building efficient, scalable solutions. Seeking opportunities to apply technical skills and grow in software development.

Education

Rasiklal M. Dhariwal Sinhgad Technical Institutes Campus), India	2022 - 2026
B.E. Information Technology CGPA: 7.33	
Shri T.N Raundal Collage of Science, Kalwan	2020-2021
H.S.C (Class XII), Aggregate: 84.50%	
R.K.M Secondary And Higher Secondary School, Kalwan	2018-2019
SSC (Class X), Aggregate: 88.60%	

Technical Skills

Languages: Core Java , C/C++ , Python, OOP'S , DBMS ,HTML , CSS , JavaScript , Git , Postman , Firebase , Rest API , React.

Database: MongoDB , SQL.

Soft Skills: Problem Solving, Self Learning, Presentation Adaptability.

Work Experience

FrontEnd Developer Intern Coding Savvy	Dec'24 - Jan'25
Developed a responsive eye test booking platform with real-time appointment scheduling , enabling seamless and efficient user interactions. Implemented live location tracking to help users identify nearby eye testing centers, enhancing accessibility and convenience. Integrated REST APIs for dynamic data handling and instant booking updates, ensuring smooth data flow across the application.	

Projects

Elegant Vision React, JavaScript, Html, Css, Git	Jan'25
Built a responsive eye care web application for booking eye test appointments, browse Spects and accessing eye care services. Designed a clean and user-friendly interface to ensure a smooth user experience and deployed the application on Netlify. Link : https://thriving-granita-c13437.netlify.app/	
Glamize JavaFx , Firebase , RestAPI	May'25
Glamize outfit Styling Suggestion app is a JavaFX-based outfit styling application integrated with Firebase, enabling users to explore and select outfits through category-based navigation and visually rich UI components. The project was show on the SuperX platform by Core2Web, contributing to hands-on experience in UI design and real-time database integration Link : https://github.com/sanikaahire/Glamize	
Chat App	Mar'25
Developed a real-time chat application integrating Gemini API for intelligent conversational features. Integrated APIs for user input and test result display. Github Repository : https://github.com/sanikaahire/Chatapp	
On Screen Activity detection system Python , OpenCV , MySQL , Computer vision	Jan'26
Developed an automated online proctoring system using computer vision to monitor on-screen activities and detect face, eye movement, and suspicious behavior during exams and E-Learning. Implemented using Python and MySQL to enhance security and integrity. Github Repository : https://github.com/sanikaahire/On-Screen-Activity-Tracking-in-E-Learning	

Certifications

Java Language Course

Learned core Java concepts including OOP principles, data structures, and application development.

C Programming /C++ Course

Built strong programming fundamentals with focus on problem-solving, algorithms, and memory management using C and C++.
